

## **INTRODUCTION – JUMS 3.0**

The long awaited JUMS 3.0 is here! This CD contains auto-run, a JUMS HOW TO tutorial that can be copied to your computer hard drive or network server, extensive help files and the ability to convert JUMS 2.4 (JOINT-JUISS) data. It also has numerous cadet reports and required unit reports, such as Academic Credit, America's Promise, Enrollment Reports (including the ability to manually enter second semester projections for schools on block scheduling), and the Management Control Report. All reports in this program can be exported to Microsoft Word. Many can be exported to Microsoft Excel or Microsoft Access or copied to ADHOC and customized by adding or removing fields.

### **What You Need to Know Before You Get Started**

You will need to know your Region, Brigade, UIC, and the last four numbers of your school code. Your school code can be found on your Leave and Earnings Statement. During the installation of this program, you will be prompted to select your Region, Brigade, and Unit/UIC/School Code from a list box. Since some schools have the same name, you will need to compare the UIC and School Code from the list box before making your selection. If you have data in JUMS 2.4 to convert, the last 5 characters of your UIC (the UIC minus the first "W") and the last four numbers of your school code must be entered in the System Setup of JUMS 2.4. Your computer will reboot at least once during the installation of this program, so you must close all other running programs and screen savers.

### **JUMS 3.0 Beta Testers**

If you installed a test (beta) version of JUMS 3.0 on a computer and wish to install this program on the same computer, you **MUST uninstall** the test (beta) version before proceeding with the installation of this program. Data from the test (beta) version **CANNOT** be converted to JUMS 3.0. Please read the Supplemental Instructions for removing the test (beta) version of JUMS 3.0.

### **Installation**

This program contains two types of installation:

- 1) STANDARD INSTALLATION - Installs JUMS 3.0 as a stand-alone program.
- 2) CUSTOM INSTALLATION - Installs JUMS 3.0 as a networked program. This option requires the help and expertise of your school network administrator and a password is required from HQs, JROTC.

### **System Requirements/ Minimum Network Requirements**

JUMS 3.0 operates in the following Windows environments: 95, 98, 98SE, NT, 2000, ME and XP Professional. Windows 95 and NT 4.0 users please refer to the supplemental instructions in Step 14 of the STANDARD INSTALLATION.

100 MB free disk space

64 MB RAM

TCP/IP Protocol

### **JROTC Help Desk**

For assistance with JUMS 3.0, dial 1-800-347-6641 and select "AUTOMATION/JUMS" on the Automated Telephone Attendant. Questions, comments, and suggestions on this program can be emailed to [jumshelp@monroe.army.mil](mailto:jumshelp@monroe.army.mil).
